

“How Space Travel Led to an Accidental Discovery Which *Quickly* and *Easily* Solves 86% of Back Pain... and the *Breakthrough* Medical Technology that’s Bringing it to YOU!”

Dear Back Pain Sufferer,

There is a very good reason why thousands of *former* back pain sufferers are calling non-surgical spinal decompression, “*The Magic Wand.*”

This amazing new medical breakthrough, *accidentally* discovered through space travel, is responsible for cracking the back pain code for thousands of FORMER pain sufferers. Many of them had previously tried *everything* and were thought to be hopeless cases. Many of them were told – “*We’ve done all we can do for you... you’re just gonna have to live with the pain,*” and are now pain free.

Know this: This report is more than just how OTHER people solved their back pain. ...*Its Much more.* It reveals exactly how YOU can too.

Imagine living the rest of *your* life pain free.

Imagine waking up tomorrow morning with *your* back pain GONE.

Imagine how much easier *your* life would be if you could just be pain free....

...*once and for all!*

I’m actually willing to personally guarantee that if you are seriously motivated to finally put an end to your agonizing back pain – naturally – without drugs or surgery, that this will be the most exciting, and important report you ever read. Why?

...Many modern doctors are saying this amazing new technology has *revolutionized* back pain treatment, and may make spinal surgery (and other back pain treatments) way less popular!

Clinical studies have shown *non-surgical* spinal decompression to be successful (good or excellent relief) in 86% of patients with herniated discs and degenerative joint disease – without the side effects. (1)

The most amazing thing is:

One study also showed a 90% reduction of disc herniations in 71.4% of patients. (2)

Why is that so amazing? Herniated discs were thought to be just about untreatable without surgery, before the introduction of this incredible new technology.

Even better, treatments with this space-age, non-surgical technology, are *pain-less, drugless, and there are no documented side effects.* In fact, many patients report that the treatments are so relaxing... they actually fall asleep!

And best of all...the results are much better.

...How Would You Like To Check Out This Amazing New Technology and See If You Qualify For Treatment... Absolutely Free?

You will get to see everything first hand, and find out if Spinal Decompression is *your* back pain solution - as it has been for 86% of *former* back pain patients in well documented studies.

In a minute I'm going to reveal to you exactly how you can do just that... *and a whole lot more*. But first, I want to tell you the amazing true story of how spinal decompression was discovered, how it works...and... why there is an 86% chance it will be the answer to YOUR back pain.

Here's the story:

“How Space Travel Cures Back Pain”

The space exploration program has had many intentions... be the first to land on the moon, orbit the earth, even look for other life forms...you know, aliens..

...as far as I know, solving back pain was not one of their goals.

But that's exactly what was observed just over 10 years ago...

...completely by accident.

Here's how:

Over the years, they began to notice an unexpected result of space travel... Astronauts that left with back pain, returned without it!

So researchers did what they are good at...they investigated this new phenomenon.

Here's what they found:

During the anti-gravity state of space missions, there were decompressive forces on the intervertebral discs, and back pain was relieved.

...They also found Astronauts height to be increased.

How?

Imagine your spine as a bunch of blocks stacked up on top of each other.

24 blocks to be exact. In between each block is a disc. Discs, are sort of like a jellydonut.

The outside of the disc is made up of tough fibers called the 'annulus fibrosis', the inside of the disc has a soft, jelly like substance... the 'nucleus pulposis'.

When your disc is injured or torn, the jelly like substance on the inside can leak out.

This is called a herniated disc. If the outer material is not torn, discs can bulge – without herniating...

Kinda like if you step on a balloon and it doesn't pop. The balloon bulges out to one side or the other without the rubber breaking.

When a disc 'bulges' or 'herniates', it is a *major* cause of back pain because it can pinch the delicate nerves that pass by as they come out of the spine.

This is What Causes Radiating Pain... a Sharp or Dull Pain; a Tingling, or Numbness That Goes Down your Leg, and Possibly your Toes.

This is often referred to as 'Sciatica'.

Now back to the astronauts...

When you travel through space, the effects of gravity are removed and you are in a weightless state. All the pressure is taken off your spine and discs.

Even better – and this is the key... it seems as though a *negative pressure* is created.

It is believed, that this negative pressure, *actually sucks the herniated material back into the disc, and allows it to heal* (I'll show you some proof of this in a minute).

By naturally drawing the herniated material back into the disc, pinching of the nerves is relieved, and so is the pain.

It takes away the true cause of your pain and symptoms, instead of masking it with drugs, or cutting the herniation out with surgery.

With the herniated material back where it was supposed to be, astronauts also gained height. One of the major reasons you lose height as you get older, is because of the shrinking of multiple discs.

One Big Problem...

All this sounds great. But there was only *one big problem* with this miracle back pain solution: *you needed to spend time in outer space to get these great results!!!*

If you weren't an astronaut – you were out of luck! That's until now...

**Recent medical breakthroughs have led to the development of advanced technologies which can reproduce the effects of anti-gravity space travel...
...RIGHT HERE ON EARTH!**

Through the combination of proven scientific principles, the latest technological developments, and the brilliant work of a specialized team of physicians and medical engineers -- **Axiom Worldwide**, a medical manufacturing company, now offers this space age technology in its incredible '**DRX 9000**' Spinal Decompression equipment.

Results in using the DRX 9000 equipment has proven to relieve pain by:

- 1- Enlarging the Disc Space.**
- 2- Reducing Herniations.**
- 3- Strengthening Outer Ligaments to Help Move Herniated Material Back into Place.**
- 4- Reversing High Intra-Disc Pressures Through the Application of Negative Pressure.**

In simple English...

The “DRX 9000” Relieves Pain Fast!

According to a study in the *American Journal of Pain Management*(3), the decompression method, provided good to excellent results for 86% of patients with herniated, or ruptured discs, and 75% of patients with facet arthrosis. (Axiom Worldwide).

Let’s Summarize:

In a nut shell... space travel accidentally discovered that the anti-gravity effects on astronauts, cured back pain!

Now, modern medical technology has closely duplicated these effects right here on earth, with the **DRX 9000**, non-surgical decompression equipment. ...and here’s the best part...

**The DRX 9000 has been approved by “The Food and Drug Administration”...
...you’ve gotten to know them as *the* “FDA”.**

The main conditions the DRX 9000 has documented success with are:

- 1- Back pain
- 2- Sciatica
- 3- Herniated and/or bulging discs (single or multiple)
- 4- Degenerative disc disease
- 5- Relapse or failure following surgery
- 6- Facet syndromes

A very important note: The DRX 9000 has been successful with even the most severe cases... even when NOTHING else has worked. ...*Even after unsuccessful surgery.*

What are Treatments with the DRX 9000 Like?

After being fitted with a customized Shoulder and Pelvic Support System, the DRX 9000 slowly lowers you to the horizontal position. You are lying face up, while the automatic Support Systems that stabilize your upper and lower body, are ‘linked’ to upper and lower points of the DRX.

The advanced computer systems are specifically ‘pre-programmed’, and automatically adjust to the proper angle of distraction that is needed.

A Lordotic ‘air bladder’ system is inflated, this acts as a fulcrum for the angle of pull, and allows us to **target the specific discs** that are causing your pain, and symptoms.

The distractive forces of the **DRX** utilize a ‘Logarithmic Curve’ (specific rhythm pattern) which prevents proprioceptor (neuro-muscular) responses, ...this is one of the secrets of the **DRX** success: it prevents spinal muscles from ‘tightening up’ during spinal treatment.

The split table design decreases friction, and allows for a comfortable, gradual separation of the vertebra in an ‘on-off/on-off again’ pattern, ...**this minimizes the effect of gravity.**

...Basically, you lay face up, and the amazing **DRX 9000** computers simulate an anti-gravity effect on your back, that helps herniated material return to it's normal position while stopping the pain.

Patients describe the treatment as a gentle, painless, intermittent pulling of your back. ...and like I said before, it can be so relaxing, many patients actually fall asleep during treatment.

How is the DRX 9000 Different From Other Traction Devices?

Regular traction has been around for a long time. It's results with back pain has been *minimal at best*. The big problem with traction is that it pulls *both* the muscles *and* the spine. Pulling the muscles can cause unwanted muscle tightening (spasm), and actually **increases** unwanted spinal disc ('intradiscal') pressure.

The **DRX 9000** applies specific forces to **decrease** intradiscal pressure to enhance fluid absorbtion *within* the disc. This expands the space between the spinal bones, and restores nutrients and blood flow to the disc... it causes a true healing of the disc.

MRI studies comparing regular "old " traction to spinal decompression, have shown that regular traction does NOT return herniated material back into the disc, **while spinal decompression does.** (4)

Patients also say the DRX 9000 is extremely comfortable... even relaxing... while traction can be very uncomfortable.

How Long are Treatments, and How Many Treatments Do You Need?

Although pain is often reduced after the first few sessions, the most effective results are enjoyed after 16-20 treatment sessions. Treatment sessions are between 35 – 55 minutes, depending on your individual case. All treatment is determined by a thorough evaluation.

Your DRX Treatment Plan may also combine other state of-the-art advancements in Physical Therapy to support the healing process, and includes the benefit of over 30 years of hands on experience.

Our goal is:

- To Get you out of Pain.
- To Fix your Damaged Discs.
- To Correct Spinal Imbalance.
- To Increase Spinal Flexibility and Strength.

AND... To Teach You How to Maintain a Healthy Spine...For the Rest of Your Life!

The really good news is... **DRX** is not something you have to continue to do for the rest of your life. So it is not a forever commitment.

It is however, important to note that, although many patients get substantial, immediate relief after just a few treatments, (some after just one!) ...it is vital that you learn, and understand how to keep and maintain a healthy spine for a healthier life.

Right about now there are only two questions you should be asking yourself:

Question #1: How do I find out if I am a candidate for the DRX 9000?

Question #2: How much is it going to cost me?

Here's the answer to #1: If you could be here with me right now, I could show you, through diagnostic testing and examination procedures, **EXACTLY** what's causing your problem, and if you are a candidate for the **DRX 9000**.

I can also tell you if there may be another, perhaps more appropriate treatment option for your specific condition, and I can provide a referral to another doctor.

I could show you and explain to you in plain and simple English (not just the medical 'mumbo-jumbo' that most doctors give you) **WHAT** exactly is going on, **WHY**, and **HOW** you can get better as **FAST** as possible.

...How you can finally start getting your life back.

Here's a sampling of what you would discover if you were here with me right now:

1-Consultation with me, Dr. Allan Weisberg. With over 30 years experience, I have combined the most effective 'hands-on' procedures with advanced Physical Therapy. I have successfully **helped thousands of patients with Back Pain. NOW...** "armed" with **DRX** technology, we can get even the toughest cases better. **We will discuss your problem together, and I will answer ALL the questions and concerns that you may have about Back Pain, and the DRX 9000.**

2- Complete Back Pain /Spinal Decompression, 'Qualification Case History,' to help determine if you are a candidate for the DRX 9000 Treatment Program.

3- A specialized Back Pain / DRX 9000 'Qualification Evaluation'.

4- Comprehensive 'Posture and Structural Balance Evaluation'.

5- "Recommended Action Plan"- a summary of examination, and test results, and recommendations... whether you qualify for the DRX 9000 Treatment Program or...if your condition might better be treated by other means, we will refer you to the appropriate Doctor.

6- I could also show you the DRX 9000, and demonstrate HOW it works.

...You could “see it for yourself.”

How would you like to take part in that amazing evaluation for yourself?

You can... *without spending a single penny.*

Here’s the answer to #2:

Since I can’t possibly do that Evaluation and show you if the DRX 9000 will work for you without you actually being here... I’m willing to give you this ‘Comprehensive DRX 9000 Qualification Evaluation’...with all the ‘stuff’ listed above (\$245 value)... ABSOLUTELY FREE!

Just call my office at **212-688-2900** and mention that you want your “**FREE Back Pain / DRX 9000 Qualification Evaluation.**” It’s absolutely free with no strings attached. There is nothing to pay for, and you will **NOT** be pressured to become a patient. Not at all. I have a very busy practice already, mostly by word of mouth. My schedule is close to capacity already.

You will be given the information you came in for, told if you qualify for our DRX 9000 Program or, what your best option is. From there it’s up to you.

Then why am I doing this?

*Because I Want to Give this to as Many Back Pain Sufferers as Possible...
...Before it’s Too Late.”*

The incredible feeling and freedom of knowing what is wrong and how you’re problem can be solved. The incredible feeling and freedom of **FINALLY** living without pain.

Bottom-Line: If you are suffering. If you don’t know what’s going on inside you. If you’re wondering if you will ever get better. If you are scared you’re going to get worse and have to get surgery. If you have already had surgery and it didn’t work or even made you worse. After you get this free evaluation and see what the DRX 9000 can do for you, you may not be anymore.

If you get this evaluation and qualify for the **DRX 9000**, you will be like the ‘one-eyed man in the valley of the blind’! If you don’t know that story,...he was king!

Now, I can not tell you if you will qualify for my **DRX 9000 Program**, but if you do, you have absolutely nothing to loose and possibly everything to gain.

But you must do this right away. As I mentioned above, I have a very busy practice already. Once the word got out about my DRX 9000, back pain sufferers started coming out of the woodwork.

Now that I’ve written this report and started running ads, I honestly don’t know

how long this offer will last. I could literally get swamped with calls overnight and have to shut it down. I can only accept a very limited amount of new patients every month.

I always want to make sure you get the individual attention your case requires so you get better as fast as humanly possible. For that reason... this offer could be suspended or cancelled at any time.

Most likely I will be forced to start a waiting list.

But I will guarantee you an immediate appointment if you call within the next 12 days. After that, your spot will be released to someone else.

So don't delay. Any "thinking it over" and you could be shut out.

It's scary how fast word about my '**DRX 9000 Program**' is traveling. If you are even the slightest bit interested in what I've said in this report and finding out if spinal decompression therapy can end your pain and suffering... call **212-688-2900** right now, while it is still on your mind, and I still have openings.

You've spent so much time suffering already. Why not take 15 minutes of your time and find out the **REAL cause** and the **REAL solution** to your back pain ...
...and make your life so much easier and better?

This is how you can finally take away the pain and open so many doors in your life that were slammed shut, due to this crippling condition.

Finally achieve all the things you easily could have achieved without the pain and suffering of back pain constantly stopping you.

...The 7 Most Dangerous Words to Your Future...

...There are **7 simple words** that threaten to ruin the rest of your life, and to destroy ALL your future happiness. ...those words are:

"It will go away all by itself"

If those words have crossed your mind, here are the disturbing facts:

- 1- 80-90% of all adults will suffer with low back pain at some time in their life. (5)**
- 2- LBP is the leading cause of disability for people under 45 years of age. (6)**
- 3- LBP is the second leading cause of visits to doctors' offices. (7)**
- 4- LBP is the third leading reason for hospital admissions. (8)**
- 5- Annual costs of Back Pain in the U.S. range from \$20-\$75 billion, and as much as \$100 billion worldwide. (9)**
- 6- According to Met Life Insurance statistics, the average back treated medically**

without surgery costs \$7,210, and the average back treated surgically costs \$13,990. (10)

7- Statistics indicate that 15-20% of the population have LBP in any given year...approximately 32 million cases. (11)

One of the biggest “accepted” myths about back pain is that it goes away all by itself, without any treatment. Most doctors believe the claim that 90% of episodes of low back pain will resolve within one month. Well, a May 1998 study in the British Medical Journal proved this myth false.

Here are the eye opening results:

Patients condition 12 months after initial medical consultation -

No Pain & No Disability.....25%

Pain or Disability.....25%

Pain AND Disability.....50%

The authors of the study concluded:

“This takes account of two consistent observations about low-back pain: first: that a previous episode of low-back pain is the strongest risk factor for a new episode, and, second: by age 30 years almost half the population will have experienced a substantive episode of low-back pain. These figures simply do not fit with claims that 90% of episodes of low back pain end in complete recovery ” (12)

My conclusion....75% of back pain sufferers will have either pain or disability, or pain AND disability, one year after their initial consultation to a medical doctor...

It’s clear that back pain does NOT get better without PROPER treatment. The ‘30 Year Rule’...

‘The 30 Year Rule’ is one of the most dramatic, important and life changing realities you can ever discover. Once you understand this seldom talked about harsh fact of life - the decision you have in front of you right now will become so miniscule - so trivial - so easy to make - like taking candy from a baby... or Oprah Winfrey retiring early!!!

Yet, if you don’t understand this simple reality, you may wake up one day with the crushing realization that you’ve “let it all slip away” and it is “too late.”

‘The 30 Year Rule’ states that most of you reading this report, according to the average onset of Back Pain and the average human life span, have approximately 30 years left on this planet...some more...some less.

This means, you only have approximately **30 years to do EVERYTHING** you’ve always wanted to do...or guess what? You never will. As far as I know, you can never get any of this precious time back... not even one measly second!

Now, I don’t know about you, but the first 30 years of my life went by in the blink

of an eye - and it seems like the second 30 are speeding by like Speedy Gonzalez on steroids!

Now, the 30 year rule is not meant to scare you - only to give you a little **“wakeup call.”** How are you gonna spend the next 30 years? The only 30 years you have left. Agonizing in pain? Tired? Complaining? Downright Miserable? Missing all the “golden” opportunities, and moments in life? ...Or living life to it's fullest... without any regrets, or “only ifs”, or “woulda, coulda, shouldas”.

Real Life Security...

Most people think about one thing when they think about security...MONEY. Well, the minute you suffer with a serious health problem such as back pain, you know that not to be true. Just ask yourself this question: “If I could plunk down \$1 million in your lap right now, or take away your back pain, which would you choose?

What would you do with your \$1 million feeling like you do?

There are many ways to make money and enjoy life if you are healthy and painfree. I don't personally know one if you are constantly in pain.

The only ultimate security in life is your health. When you have your health, you can do anything you set your mind to... it removes so many barriers from your life... ...the world is your oyster!

Your Clock Is Ticking...

Each day that passes while you live in pain and do nothing about it.

Each day that passes while you do not have the answers that our evaluation may provide for you., is another day that you might be getting worse...

...one day closer to disability or even surgery.

This adds up. ...Time passing without this treatment robs your enjoyment of life! “Enjoyment delayed, is too often enjoyment lost.”...Struggling to get out of bed, tying your shoe laces, playing with your children, ...making love to your spouse!

If you're struggling with back pain now, what makes you think you'll get better without something new. Something different. Something **RADICALLY** different. That something new, something radically different is what will be revealed to you when you get your evaluation.

That something radically new and different is... **The DRX 9000.**

So when I said your clock is ticking and I want to give this to you before it's too late, I'm talking about a powerful decision you **MUST** make **RIGHT NOW**... After all, it's your back not mine...it's your 30 years, not mine... it's your life, not mine.

*If this does not mandate you picking up the phone right now and scheduling your **FREE***

EVALUATION, and seeing EXACTLY what the DRX 9000 can do for YOU, I'm at a loss as to what would.

Here's Something To Consider:

When you experience my DRX 9000 system, see how quick and easy it can be to *finally* get out of pain... it's the most wonderful feeling in the world. If you continue doing what you're doing and it fails... *like most back pain treatments out there...* it can rip your heart out and destroy your life.

Is it worth 15 or 20 minutes of your time to see what I have to offer? Are you kidding me? If the DRX 9000 only works half as well as I know it does... it can mean a whole new life for you. When you finally get rid of the pain that has been holding you back, success and happiness can come flooding into your life. *Occurring literally overnight.*

Without taking this step, you may struggle forever, and *still* never discover the secret solution to your back pain. You can go to 50 other doctors and read 500 books and listen to all the "experts" in the chat rooms... *and still not even come close to the awesome potential and power I'm about to hand you.*

I can't even *begin* to understand anyone who (being serious about solving their back pain and living a happy pain-free life) would not **JUMP** on this opportunity - - *immediately*. So many people have been helped already and are pain-free today. It makes no sense for you to continue to suffer when you don't have to.

So what's it gonna be? I've shouldered ALL the risk and you don't risk a single penny. Call now at: 212-688-2900. **Don't get left out!**

Start a brand new life WITHOUT back pain, *in as little as a couple treatments.*

Sincerely,
Dr.Allan Weisberg

P.S. Please remember, you only have 12 days to call and get your **FREE Spinal Decompression Evaluation** (\$245 value). I have been receiving hundreds of calls requesting this report. If you do not act fast, you may have to be placed on a waiting list and have to pay the full \$245. fee.

As far as I know,at this time, there are less than a handful of doctors in NYC, with the **DRX 9000** equipment.

If you think this amazing opportunity might be for you – call right now.

After you come in for your **FREE** evaluation and experience the **DRX 9000** you will have the **ONE THING** so many others around you suffering with back pain do not have.

This is your opportunity to possess a power so many suffering with back pain do not have. ...Sort of like being the only person with an “S” on your chest that can “run faster than a speeding bullet, and leap tall buildings in a single bound”!

Because I know how back pain consumes and ruins your life. I am absolutely convinced that it is more important for you to focus your attention on this **ONE THING: The DRX 9000... “the most probable solution to your back pain problems”**. ...no matter how important you **THINK** “other things” might be.

When you suffer with back pain, **NOTHING** can make you happy.

When you **FINALLY get relief from your back pain**, you will hold the key to the vault... the vault that allows you to do all the things you’ve ever wanted to do in life – without fear... and... without pain.

Conversely, **NOT** resolving your back pain imprisons you in many different ways. It may enslave you to a life of deadly pain pills. It may make you lose your job, your family, and everything dear to you... including your life!

You’ve worked so hard to get where you are today – do you really want these back pain “ankle chains” to be putting you on ‘house arrest’?

The decision you have in front of you right now is gravely important. Pick up the phone and give us a call. 212-688-2900. We are expecting you, so call now!
